Food and Drug Administration 9200 Corporate Boulevard Rockville MD 20850

Mr. Eugene Lieberstein, Esq. Secretary Precious Chemicals U.S.A., Incorporated 2151 Long Ridge Road Stamford, Connecticut 06903

Re: K023831

Trade/Device Name: UCP™ Dental Material

Regulation Number: 21 CFR 872.3060

Regulation Name: Gold-Based Alloys and Precious Metal Alloys for Clinical Use

Regulatory Class: II Product Code: EJT

Dated: November 08, 2002 Received: November 18, 2002

## Dear Mr. Lieberstein:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the <u>Federal</u> Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4613. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97) you may obtain. Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <a href="http://www.fda.gov/cdrh/dsma/dsmamain.html">http://www.fda.gov/cdrh/dsma/dsmamain.html</a>

Sincerely yours,

Susan Runner, DDS, MA

PRECIOUS CHEMICALS U.S.A., INC Premarket 510(k) Submission UCC<sup>™</sup> Dental Material Regulatory Class II

## Indication Of Use Statement

The UCP™ Dental Material is used as a bonding agent to facilitate a bond between an opaque porcelain and a gold based metal understructure in the preparation of a Porcelain-Fused-to-Metal-Restoration (PFM). The UCP™ Dental Material is particularly intended for bonding porcelain to a precious metal coping marketed under the trade name "Captek" which received Premarket 510(k) authorization from the FDA in 1994 under the FDA number K932243 HF-2-410 ODE/DGRD.
